**Our adults & seniors are some of our most fragile and vulnerable people that we serve. It is difficult to imagine your parents in a health situation depending on these supplies and not being able to purchase them. Their expenses for incontinent supplies can cost them around \$200-\$300 a month. I have heard from some that they have had to choose between food and incontinent supplies at times when their need has increased due to health challenges. Most of our adults and seniors depend on Destiny Diaper Bank for their supplies each month.**

**To qualify for supplies, we need proof of low income such as Medicaid, Food Stamps, Letter of Assistance from the state, or referral from healthcare provider. We also need a prescription or referral from your healthcare provider signifying need for supplies. You can also ask your healthcare provider if they will give us this information over the phone. With your approval, we can verify this information quickly.**
